Career Objective

Motivated and enthusiastic B.Tech Information Technology student with a strong foundation in Python programming and Data Structures & Algorithms. Seeking internship or entry-level opportunities in technology companies, cloud providers, IT services firms, or startups where I can apply my technical skills, learn from industry professionals, and contribute to innovative projects.

Education

Bachelor of Technology (B.Tech) - Information Technology

[College Name]

Expected Graduation: [Year]

CGPA: [Your CGPA] (if available)

Technical Skills

Programming Language: Python

Data Structures & Algorithms (DSA)

Object-Oriented Programming (OOP)

Problem Solving

Basic Database Concepts

Git & GitHub (if familiar)

Experience

Online Intern

[Organization Name] | 1 Month

Participated in online technical training and project activities.
Applied Python programming concepts to solve practical tasks.
Collaborated with mentors and peers to complete assigned assignments.
Enhanced problem-solving and technical communication skills.

Certifications

AI & Machine Learning Certification - Persevox

Cybersecurity Certification - Persevox

Projects

Python-Based Project (Replace with your actual project)

Developed a Python application to solve real-world problems.
Implemented efficient logic and data handling techniques.
Improved coding and debugging skills through project development.

Achievements

Completed professional certifications in AI/ML and Cybersecurity.

Actively learning Data Structures & Algorithms.

Dedicated to continuous skill development in software and cloud technologies.

Areas of Interest

Software Development

Artificial Intelligence & Machine Learning
Cybersecurity
Cloud Computing
Backend Development

For applications to companies like Google, Microsoft, Amazon Web Services, Infosys, or startups, I strongly recommend adding 2-3 projects (Python, AI/ML, web development, or cloud-related) and a GitHub profile. These often have a bigger impact than certifications alone for fresher candidates.
