Career Objective

Motivated and enthusiastic B.Tech Information Technology student with a strong foundation in Python programming and Data Structures & Algorithms. Seeking internship or entry-level opportunities in technology companies, cloud providers, IT services firms, or startups where I can apply my technical skills, learn from industry professionals, and contribute to innovative projects.

Education

Bachelor of Technology (B.Tech) - Information Technology
JSPM'S JSCOE, HADAPSAR, PUNE
Expected Graduation: 2027

Technical Skills

Programming Language: Python
Data Structures & Algorithms (DSA)
Object-Oriented Programming (OOP)
Problem Solving
Basic Database Concepts
Git & GitHub (if familiar)

Experience

Online Intern
PERSEVEX | 1 Month

Participated in online technical training and project activities.
Applied Python programming concepts to solve practical tasks.
Collaborated with mentors and peers to complete assigned assignments.
Enhanced problem-solving and technical communication skills.
Certifications

AI & Machine Learning Certification - Persevox
Cybersecurity Certification - Persevox

Projects

Python-Based Project (Replace with your actual project)

Developed a Python application to solve real-world problems.
Implemented efficient logic and data handling techniques.
Improved coding and debugging skills through project development.

Achievements

Completed professional certifications in AI/ML and Cybersecurity.
Actively learning Data Structures & Algorithms.
Dedicated to continuous skill development in software and cloud technologies.

Areas of Interest

Software Development

Artificial Intelligence & Machine Learning

Cybersecurity

Cloud Computing

Backend Development
